USE
**Coagulation Calibrator** may be used for calibration of global tests (prothrombin time and fibrinogen) and specific tests such as coagulation factors and other proteins.

**PROVIDED REAGENTS**
*Calibrator*: citrated plasma pool from healthy patients. Lyophilized

**NON-PROVIDED REAGENTS**
- Distilled water

**INSTRUCTIONS FOR USE**
- Let stand at room temperature and carefully open the vial to prevent loss of the lyophilized material.
- Add 1.0 ml of distilled water
- Cover and let stand for 30 minutes at room temperature. Mix by gentle rotation until complete reconstitution, avoiding foaming.
- Mix by inversion immediately before use.

**WARNINGS**
Reagent is for “in vitro” diagnostic use.
The plasma was prepared from non-reactive material for HBsAg, antibodies to HCV and antibodies to HIV 1+2. Nonetheless, the calibrator and all blood samples should be handled as if capable of transmitting infections.
Use the reagents according to the working procedures for clinical laboratories.
The reagents and samples should be discarded according to the local regulations in force.

**STABILITY AND STORAGE INSTRUCTIONS**
Stable in refrigerator (2-10°C) until the expiration date shown on the box. Once reconstituted the reagent is stable for 4 hours at room temperature (< 25°C). Do not freeze (-20°C) after reconstitution due to possible activity loss.

See Procedure Limitations in the corresponding Instruction Manual of the kit in use.

**WIENER LAB PROVIDES**
- 5 x 1 ml (Cat. Nº 1705007)

**REFERENCES**

**PROCEDURE**
The reconstituted plasma should be used in the same way as an unknown sample, according to the instructions provided with the kit of reagents that are used in each case.

**PROCEDURE LIMITATIONS**
Failures in reconstitution or preservation may cause erroneous results.
Symbols

The following symbols are used in the packaging for Wiener lab. diagnostic reagent kits.

- **CE**
  - This product fulfills the requirements of the European Directive 98/79 EC for "in vitro" diagnostic medical devices

- **EC REP**
  - Authorized representative in the European Community

- **IVD**
  - "In vitro" diagnostic medical device

- **Σ**
  - Contains sufficient for <n> tests

- **Use by**

- **Temperature limitation (store at)**

- **Do not freeze**

- **Biological risks**

- **Volume after reconstitution**

- **Contents**

- **Batch code**
